Octopus 8: Life!
Colored Pencil, 23K Gold Leaf, 38" x 29"

Needle's Eye, Antelope Canyon #6
Colored Pencil, 36" x 42"

Dulka's large, colored pencil and gold leaf drawings are inspired by the beauty and power of nature.

Three series are included in this solo exhibit:
Antelope Canyon, Fish and Flower, and Sea Life.

Altogether these series present the artist's musings about the relationships between water and animals/plants through "unlikely couplings" and the impact of water on landforms. Her investigatory process results in images that push realism into varying levels of abstraction and design.
